Hello

I am writing this during the Big Give week in late March, the springtime sun is shining outside and we have just started putting our colourful cushions back out in front of the theatre. You have generously supported our campaign and I am very hopeful we will surpass our £10,000 fundraising target for the week, so thank you all for your generosity!

Individuals have donated, community groups have held collections, the Brandling Arms had a quiz to support us, and our company members have spent the week recreating famous films for our viewing pleasure... The power of community (and a little sunshine) is a wonderful thing.

It seems like only yesterday I was sat in my office listening to the autumn budget and hoping that the next section would include some support or dispensation for charities but unfortunately that never came. This week I have remembered that we have each other and with a lot of hard work we can thrive.

Recently we have been working on developing our Theory of Change which will be published in May. This is our plan for the next five years and it shows how we can achieve our long term goals at GCT. If you weren't one of the people that helped us create it, then I would encourage you to take a look.

I am telling you all of this because GCT only works with your help, we need your donations, your energy, your custom, and your belief. It is tough out there for charities at the minute but I know together we can flourish, thank you again for your unwavering support.

Yours sincerely,

Rob

CEO, Gosforth Civic Theatre.

Who we are

The story of Gosforth Civic Theatre started with a group of people with learning disabilities who set up and ran a theatre company called Liberdade (Lib-er-dar-jie). In 2012 they decided they wanted to open a theatre where everyone was welcome. They wanted to have jobs in their theatre and to provide the opportunities they'd had for other young people, and that's how Gosforth Civic Theatre came to be.

The journey to get to where we are makes GCT unique. Add to that a governance structure that empowers and gives a voice to both people with learning disabilities and young people, and you have a cultural building that can create real social change

in a community. We hope you can sense that when you come and visit us.

We are not just a theatre and a café, we are also a social care provider and a hospitality venue. As you know these sectors have been significantly effected by increases to costs over the last three years, and these increases are unfortunately set to continue.

What we're doing

GCT

We think the income we will receive from grants will decrease because there are more charities needing support from a smaller amount of available funds, and so we are aiming to increase our earned income by £100k and the income we raise from donations by £50k, we are also borrowing some working capital while our income streams grow.

To help us achieve what we need to you will notice we will or have already put in to place the following:

- Increase some of our prices.
- Introduce a paid for membership scheme in spring 2025.
- Find efficiencies across everything we do.
- Develop more ways people and businesses can financially support our charitable work.

We hope being honest about these changes will only strengthen the relationship we have with you. The most important thing is that we are all working incredibly hard to protect GCT, and the benefit it brings to everyone who uses it.
